

Pay less for select specialty medications

Complete the copay assistance enrollment process and consent to account monitoring

TRS-ActiveCare Primary
TRS-ActiveCare Primary+
TRS-ActiveCare 2

Specialty medications can cost a lot of money. That's why your plan offers a copay assistance benefit administered by SaveOnSP, which can help you lower your out-of-pocket costs.

Let SaveOnSP help you save money

Nearly 400 specialty medications are eligible for this plan benefit.¹ If you're filling an eligible medication, a representative from SaveOnSP will contact you to help you complete your copay assistance program enrollment process and ask permission to monitor your account.

You'll pay a reduced cost for your medication after you complete the enrollment process and give SaveOnSP permission to monitor your pharmacy account. If you choose not to participate in the plan benefit, you'll pay a higher coinsurance when you fill your medication.

Conditions covered by manufacturer copay assistance programs include, but are not limited to:

- + Hepatitis C
- + Multiple sclerosis
- + Psoriasis
- + Inflammatory bowel disease
- + Rheumatoid arthritis
- + Cancer

Here's an example of how it works:²

John's taking a specialty medication that's eligible for the copay assistance benefit. His copay is currently \$70. His new coinsurance will be \$1,150.

If John participates in the plan benefit, he may pay a reduced cost out of pocket.

SaveOnSP contacts John to help him enroll in the manufacturer copay assistance program. John consents to SaveOnSP monitoring his account.

John decides to participate in the plan benefit and reduced his out-of-pocket cost to \$0.
